

DOMINIONS AND PRIVY COUNCIL

A petition raising the question whether the Canadian Legislature has the right of initiative in Canada is to be presented to the King in Council in criminal matters some time before the Judicial Committee of the Empire meets recently.

The matter arose upon a petition by the British Coal Corporation and the Canadian Coal Importing companies for leave to incorporate and judgment of the King's Bench Division of Quebec. The companies had been fined \$50,000 upon a charge of combining together with a view to restricting the coal industry in Canada.

The first point raised upon the petition was whether the Canadian Legislature had power to abolish the right to appeal. For the petitioners it was contended that the Royal prerogative could not be done, only by legislation of the Imperial Parliament. On the other hand, it was submitted that the Statute of Westminster conferred power upon the Dominion to abolish the right of appeal to His Majesty in Council.

The question of the prerogative of pardoning was also raised, and in adjudicating upon the petition were the Lord Chancellor (Viscount Bessborough), Lord Atkin, Lord Macmillan and Lord Wright.

Mr. Wilfred Grenfell, K.C. (for the petitioners), said the Statute of Westminster was passed in 1931 and the Imperial Conference in 1926 and 1930.

The King's Prerogative

Mr. Grenfell remarked that, if the Dominion of Canada asked the Government of the United Kingdom to amend the Statute of Westminster, the Government of the United Kingdom would pass legislation.

Replying to the Lord Chancellor, Mr. Grenfell said his submission was that the power given to the Dominion was a power having extra-territorial operation did not constitute a Dominion Legislature to prevent the King in Council from exercising his prerogative right to hear appeals from a Dominion.

Lord Macmillan suggested a Dominion without making a petition of abolishing the right of appeal, made it a criminal offence for any body to promulgate an appeal to His Majesty in Council?

Mr. Grenfell: That would be completely ultra vires, because I would prevent a subject of his Majesty from going to the King and would be preventing his Majesty from exercising his prerogative.

Lord Wright pointed out that a Dominion could pass an Act to prevent itself from going to the King in Council.

Mr. Grenfell said it was unthinkable that a Dominion would pass such an act.

Lord Wright: It is a different view of approaching the same subject. The Statute and the King in Council are in fact beyond something which was law.

New Official Arrives

Dr. K. W. Nisbly, who is to replace Dr. O. S. Ansell as head of the field laboratory branch of the University of Alberta, has arrived here from his previous post at Winnipeg, to assume his duties.

NOTICE OF CLOSING

All Stores in the Village of Delia will be CLOSED at 1 p.m. on JUNE 3rd—

Veterans' Sports' Day

By Order of THE VILLAGE COUNCIL

REGULAR Saturday Night DANCE in the Olympia Theatre Saturday, June 1st

Dusbury's Orchestra

ALBERTA VOTE DURING JULY

The Alberta general election will be held on a constitutional basis on July 15, it was learned on a reliable authority on Saturday.

Several days in this week have been set aside for the purpose of likelihood that Wednesday, July 17, will be finally named as the day, most likely choice being Friday, July 19.

Questioned on the subject on Saturday, Premier R. G. McDonald declared that he had not been decided, but the growing feeling in well-informed political circles is that either July 17 or 19 will be named.

10th Anniversary of the United Church

On Sunday June 9th, the United churches in the Drumheller, Calgary, and throughout Canada, will celebrate the tenth anniversary of the birth of the United Church of Canada. It was at that time that the United Church of Canada was formed by the union of the Methodist and Presbyterian churches in this country.

The United Church of Canada has a membership of over 1,000,000 members in this country and is one of the largest Protestant churches in the world.

Consequence

To the Editor of The Delia Times

Sir:—There is considerable discussion on the question of the relationship of the Dominion of Canada to the United Kingdom. Some claim that it is a Dominion, others that it is a Dominion in name only, and still others that it is a Dominion in fact.

I have recently published a pamphlet on this subject, and it has been well received. It is a copy of the pamphlet which you will find in the Delia Times.

Yours faithfully,
R. J. DEACON, P. O. Box 111, Ottawa, Ont.

To the Editor of The Delia Times

Sir:—I have long felt, and which you publish in your last issue. It concerns the current economic situation and the effect of the Dominion of Canada on the United Kingdom. The Dominion of Canada is a Dominion in name only, and it is a Dominion in fact.

I have recently published a pamphlet on this subject, and it has been well received. It is a copy of the pamphlet which you will find in the Delia Times.

Alberta Takes Lead In Hog Marketings

For the first time in its history, Alberta took the lead among provinces in total hogs marketed for the first 18 weeks of the year. For the first 18 weeks of the year, Alberta marketed 342,993 head, compared with 338,000 for Saskatchewan.

There was also a further marked improvement in the quality of Alberta hogs, as compared with the average for the first 18 weeks of the year, having been 55.35, against the 50 per cent mark for the first 18 weeks of the year, as compared with 48.16 per cent for the same period in 1934, and 40.50 per cent for 1933.

—Edmonton Bulletin.

Wheat Pool Budget

Wheat shipments from Great West have been estimated at 2,500,000 bushels for the first 18 weeks of the year, compared with 2,400,000 for the same period in 1934, and 2,300,000 for 1933.

There was also a further marked improvement in the quality of wheat, as compared with the average for the first 18 weeks of the year, having been 55.35, against the 50 per cent mark for the first 18 weeks of the year, as compared with 48.16 per cent for the same period in 1934, and 40.50 per cent for 1933.

Dominion Bureau of Statistics

(Closed April 25th, 1935)

Registrations of Births, Deaths and Marriages, March, 1935

The Dominion Bureau of Statistics (closed) the number of registrations of births, deaths and marriages during the month of March, 1935, in 70 cities and towns of Canada, having a population of 10,000 and over.

Registrations in these cities and towns in March amounted to 6,336, deaths to 1,000, and marriages to 1,000. In 1934, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1933, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1932, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1931, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1930, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1929, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1928, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1927, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1926, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1925, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1924, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1923, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1922, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1921, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1920, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1919, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1918, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1917, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1916, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1915, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1914, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1913, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1912, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1911, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1910, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1909, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1908, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1907, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1906, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1905, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1904, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1903, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1902, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1901, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1900, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1899, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1898, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1897, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1896, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1895, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1894, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1893, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1892, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1891, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1890, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1889, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1888, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1887, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1886, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1885, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1884, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1883, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1882, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1881, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1880, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1879, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1878, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1877, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. In 1876, 6,336 births, 1,000 deaths and 1,000 marriages were registered in March. WORLD HAPPENINGS BRIEFLY TOLD

One Tunney, former heavyweight champion of the world, is giving up the invitation of globe trotter for as an spectator.

The late Col. T. Lawrence, who fought the battle of Amiens in the Great War, died in recent years on an income of £100 (about \$1,600) a year.

Canada sent military purposes about \$146,078,200 from 1915 to the end of February this year, according to a return table in the House of Commons.

Emperor Haile Selassie of Ethiopia sent a personal telegram to the League of Nations asking it to increase military preparations in Italy.

A return table in the House of Commons disclosed that since July 1934 a total of 87 judges in various branches of the judiciary have been appointed to positions with the salary is \$5,000 a year or more.

The radio branch, department of commerce, has been authorized to award commercial certificates of proficiency in radio. C. B. Baker, Montreal, and R. Marshall, Saskatoon, have been awarded.

For fear that Mohammedans in Britain might be offended, the British Broadcasting Corporation has banned the word "Allah" from its broadcasts.

The Arabic name for God—Allah—is a contraction of the words "Allah" and "Allah".

A party of 15 Canadians will sail from Montreal shortly on tour of Europe, principally to study labor conditions in the word.

The word "Allah" is a contraction of the Arabic name for God—Allah.

An Interesting Test

Shows More Baby Than Color Blind Than Girls

One boy in ten is color blind. This is the discovery of Dr. James D. Watson, professor of psychology in University of Chicago, who has tested a group of public schools.

"This can have tragic consequences," says the professor, "as it is now being red, green and yellow light, the tests on these children are the future drivers of motor vehicles."

The figures represent a 300 per cent increase over previous calculations.

"It is a serious thing to discover that 12 boys out of 120 might be color blind, and 100 girls out of 100 might be color blind."

"It is possible to correct confusion between certain colors with spectacles, the result of which is color blindness."

"A similar number of girls was tested, but in only one instance was there defective color sense."

It has been found that while fewer girls are color-blind, color-blindness is found more often in girls than in boys, and more often in girls than in boys.

From mothers rather than fathers. The mother of colorblind children often said to affected her mother.

Traveling alone for the young Englishman came trading into Churchill, a small town in the north of England, some 100 miles north of there.

Most and more than a bit bad. Manning was not talkative about his journey in the Arctic through two summer and winter. His studies were extensive, including French and Italian.

Most of his two years in the Arctic was spent alone on Southampton Island, a Hudson's Bay Company post where by obtained supplies. His long trip out was made without a companion. With a team of four, he left his way.

On the journey he carried 40 miles of dangerous ice foot between British and Canadian land. He had to follow the low along the coast south, making the journey into the Arctic.

His trip in little and their operations were not so small and can change. In his first four trips, with kind of luck, can do damage to enemy ships.
